

# Satellite Supporting Investment in PNG

PNG Investment Week  
11 December 2024

**Telikom**  
Connecting you Anywhere Anytime

**SkyTel**

# About Us

SkyTel is owned by Av-Comm Space & Defence. We are a team of passionate driven individuals who are constantly seeking new ways to connect people, places and things.

SkyTel is PNG's trusted authority on satellite telecommunications.

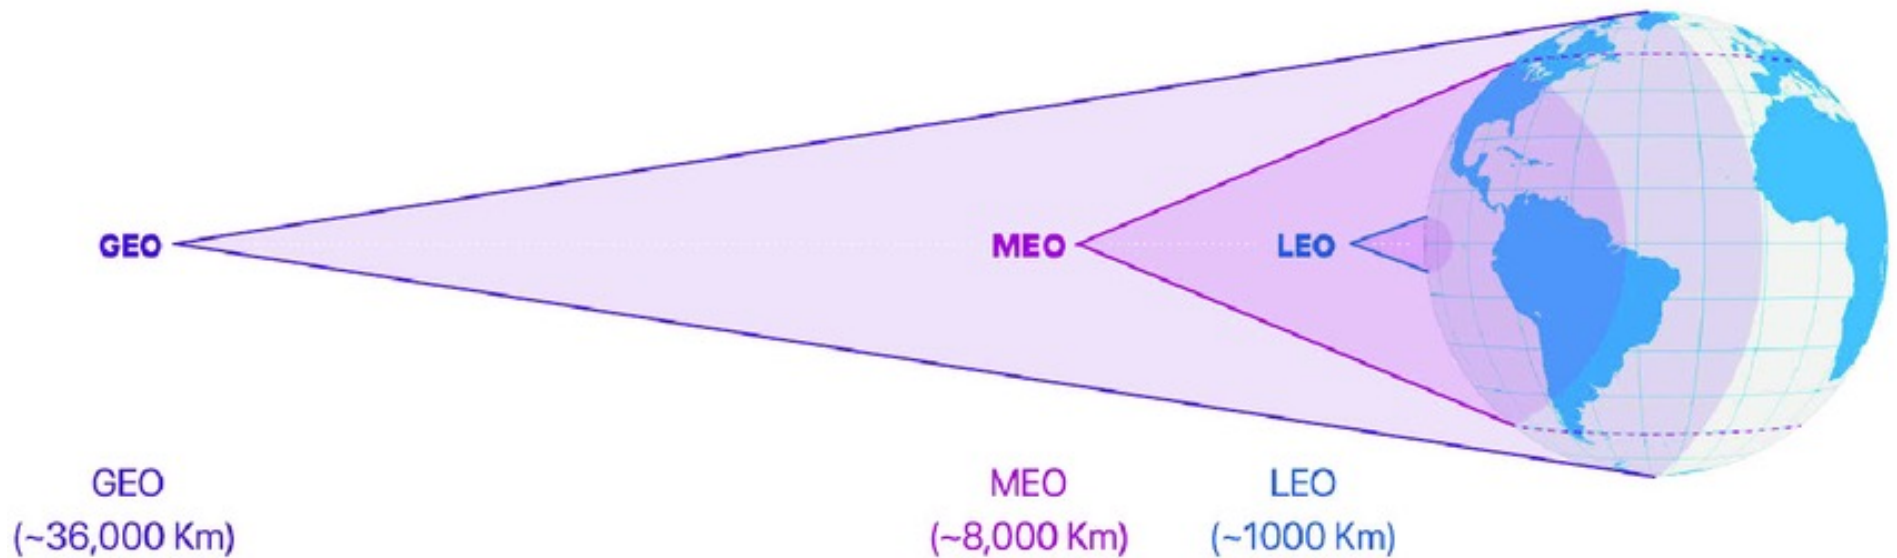

## How can Satellite Connectivity support investment in PNG?

- Satellite connects remote regions
- Satellite enables global trade
- Satellite makes ATMs work
- Satellite enhances local business
- Satellite sparks competition

## How does it work?

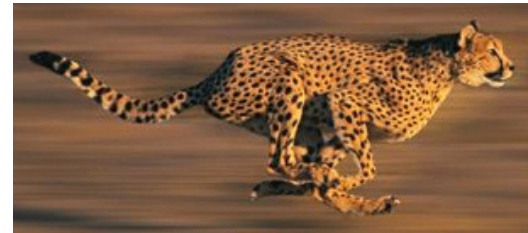

# How does it work?

## Why should you choose satellite?

Satellite communications provide a superior solution to traditional fibre optic cables.

# Problem statement

Dedicated bandwidth connectivity during working hours with Fibre like speeds and stable power and operating in all weather conditions.

Dept of Finance IFMS application

Electricity challenges uptime, back up power

Vandalism

Weather tolerance

PNG public IP address

Connectivity at fibre speeds

Hardware costs and financing

In country support

---

# GEO and LEO POC testing equipment

- GEO - Port Moresby and Daru
- LEO - Port Moresby and Kupiano

# GEO and LEO POC test results

Setup	IFMS task	Office Fiber (DataCo)	SKYLEO Intellian	SKYLEO KYMETA
